PlayGround

Connectivity

Bluetooth MIDI

To enable Bluetooth capability, ensure and ensure MIDI Designer Pro is enabled to access Bluetooth. The setting is located in -

1. Mac - System Preferences, Security & Privacy / Bluetooth,
2. Ipad or iPhone - Settings / Privacy / Bluetooth

WIFI MIDI

MDP2 does not create a WIFI MIDI instance, but can join an established WIFI MIDI instance.

This article is a little dated, but the steps are still correct (the current MacOS displays have changed) - <https://mididesigner.com/help/connect-via-wifi-macos/>
